

# Trac(k)ing and Hunting with Jaeger

# Tim Stoop

- Father, husband, “baasje”
- Operations Engineer at Kumina B.V. (owner as well)
  - Kumina is a Kubernetes Certified Service Partner
- Certified Kubernetes Administrator
- Deals with Kubernetes on a daily basis

“ *Help, our application is slow!* ”

# Tracing

- Very little to do with Kubernetes, Docker or microservices
- Gives you better insight into the workings of your application
- Still requires instrumentation to be in place (but I'd argue it's easier to add and has less of an impact)

# Links

- My code: <https://github.com/kumina/jaeger-demo> (soon!)
  - Jaeger: <https://www.jaegertracing.io>
  - Istio: <https://istio.io>
- 
- Kumina: <https://blog.kumina.nl> (we're hiring!)

Thanks!
